THE U. S. S. Mohongo left yesterday after-

Term to-day, Chief Justice Allen presiding.

JUNY TIME .- Marshal Parke requests us to in Flour, and our own bakeries going, we think the say that the Foreign Jury, drawn for the Juwhaling fleet can be supplied, this fall, with chesp ly term, will not be required until Monday, the 18th instant, at 9 o'clock, A. M., punctu-

> LARGE YIELD.-We learn that Mesers. E. Baily & Son, of Wailuku, have taken 6 8-9 tons of sugar per sere from a field of several acres, the land having been surveyed and the sugar weighed.

The entertainment of Mr. C. B. Plummer, at the Public Hall, last evening, was a decided success, and a large and appreciative audience attended. The sentimental pieces were good and well delivered, while his comical delineations caused all to have a hearty laugh. If we may judge from the applause, none went away dissatisfied. Mr. Plumme promises another entertainment.

RECEPTION.-Col. Spalding received at the new Consular Rooms in Makee's Block on Saturday, the fourth, at 12 o'clock, official visits from His Majesty's Ministers, His Ex. the Governor of Oahn, and from his colleagues in the Diplomatic and Consular service. A handsome lunch was set out in the rooms. A large number of our American and other residents availed themselves of the occasion to pay their respects and offer their congratulations in honor of the day.

THE MOHONGO .- The Ball on board the followge on Saturday, the evening of the Fourth, was a brilliant and pleasant affair The ship was finely decorated, brilliantly lighted, and ample room was enclosed by flags and canvas, both on the main and upper deck, to accommodate the guests, and give space for dancing. The full moon added its lustre to the pleasant preparations for the evening's entertainment, and made the boattrips to and from the vessel, no small portion of the enjoyment. The supper was served about ten o'clock, and the ball broke up before midnight.

There was a large number of invitations issued, embracing all nationalities of our fereign residents, and the acceptance and the attendance was very general. The official persons present were, His Majesty's Cabinet, His Excellency Gov. Dominis and Staff, in uniform, the Acting U. S. Minister Resident, H. B. M.'s Commissioner and Consul General, H. I. M.'s Commissioner and Consul. and the various members of the Consular corps. No pains was spared by Captain Simpson and his officers to make their entertalament pass off pleasantly to all their guests, and seldom has a party on ship-board een more successful, or given greater pleas-

ure to those attending. MR. BECKWITH'S SCHOOL - The evemination of the select school of Mr. M. B. Beckwith, Miss Atherton assistant teacher, was held last Friday. The scholars were examtaught during the year, and exhibited commendable progress. Frequent singing varied the exercises. Mr. Beckwith takes great pains to teach thoroughly, the very pleasant art of vocal music. The experience of this school proves that there are white children in the town whose parents are unable to edneste them, and unless the teachers of our select schools can afford to tax themselves, or help in other way be extended to such children, they must remain without elementary education. The fact is one worthy of serious attention, and as this class of children increase, the necessity of making provision to meet such cases, will force itself more and more upon the public attention.

THE REGATTA.-The Regatta of the fourth was a very popular and well attended affair. 48 14-25 tons register, copper and copper-fas- The brass band were stationed on the Esplanade, which was crowded with speciators, as well as the vessels laying alongside the wharves, all lutent on watching the performances of the boats. A large number of boats were entered, and the competition was lively and exciting, and loud cheers greeted the winning parties. The boats were started from a point abreast Robinson's wharf, and rowed out to the entrance, rounded a boat

The British Budget.

THE REVENUES AND EXPENDITURES OF THE COMING YEAR.—In the House of Commons, on the evening of the 23d April, the Chancellor of the Exchequer explained the budget of the year. Premising that though the clasticity of the revenue had not equalled that of former years, considering two bad harvests and the commercial crists, a retrospect of the fluancial condition of the country was not unsatisfactory, be plunged at spect of the mancial condition of the country was not unsatisfactory, he plunged at once into a comparison of the estimated revenue with its actual yield. Mr. Hunt passed then to the finances of the coming year, and dealing first with the ordinary expenditure, and putting out of sight for the present the Abyseinian expedition, he estimated it thus: mated it thus:

\$10,425,000

Having explained the changes in the charges Having explained the changes in the charges for the debt, the result of which was an increase of £80,000, and offered some reason for the increase in the estimates—which he showed in certain cases to be more apparent than real—he stated his proposals for raising the revenue of the year. Assuming the teaduty to be continued, and taking the income tax at 4d., he thus calculated next year's income:
